END OF PHOTOS

Upon arrival at the hospital at 13:31 Hrs. I met with
CAROL PUTNAM, RN

[REDACTED]
who was acting as a "coordinator". I was also introduced to the attending E.R. Doctor:

Anthony Bock, MD

DOB:

and both individuals advised me that the infant was deceased and badly bruised. I identified the four Emergency Medical Techs. who had transported the victim:

George Hockhousen

Joshua Allen

James Kenney

and

Robert Frechette

The Maine State Medical Examiner was notified by Carol Putnam at 13:54 Hrs. and the Maine Dept. of Human Services, Childrens Emergency Services was notified by Nurse Putnam at 14:00 Hrs.

I spoke by telephone with Officer Steve Hamel who advised me that the infant victim's name was:

Cassidy Bortner

That her mother was:

Amanda Bortner

And that the individual who had been caring for Cassidy and who placed the 911 call was:

Jeffrey Marshall

While waiting for the medical staff to complete their examinations I noted that full body X-Rays were taken and the location and description of all trauma was diagrammed and described in Hospital Forms and Records by the attending Nurses. Once I had taken photographs of the body I returned to Kittery PD and had the three rolls of film processed.

This concludes my activities in this investigation.
