[Evidence pages 19-20]

WITNESS STATEMENT FORM

CASE NUMBER _____ DATE 11/9/00 TIME 2:25

I, Jefferey Marshall _____ DOB _____

My telephone number is _____. I am giving this voluntary statement to Det. Avery of the Kittery Police Dept.

[first page]

I, Jefferey Marshall of 51 Rogers Rd Kittery ME. My girlfriend, Jennifer Bortner, who lives at the same address as me. Me and her would take Cassidy to baby sit her overnight so her and Chad could go out. This was at first, but then we took her because she had bruises on her. They said it was because she had fallen many more times. She came over with more bruises on her and we took her because Mandy did not want to bring her to day care.

I and my girlfriend said to each other that it was weird that she had bruises on her face that look like she have been grabbed by the face. We don't know but we thought Chad had done it on Cassidy. Cassidy came over and stayed more times because Mandy was going out to school and Chad's sister was coming over so they did not want Cassidy to be seen by Chad's sister or parents. About every time she came over she looked like she had bruises on her body. Kind of like hand prints on her face like she was grabbed.

[second page]

I will say this. Casidy was clumsy and not a very active child. She was very quiet and did not walk around like you would suspect a little one to do. (One time though she... [crossed out]) I would tell you that I told Mandy that the baby seemed weird and she did not seem to now what she was doing all the time. One time at are house, she did get in to windeck's and I assumed she had swallowed some. So I tried to get her to spit it out but other than that she was very quiet and kind of studd there up against the wall in less you put her in bed and even then sometimes she would get out of bed and stand up against the wall. I was told by Chad that she would go and get put in the corner if she was bad. So we thot that she was so us to this and this would happen all the time I would say there was many time's that [crossed out] we should have thought twice about the bruise's on her face. Because my next store neighbor saw her face and that that it was bad and Stanley Staley who worked for me said that it look like she was not taken care of.

FOLLOW-UP REPORT**

[evidence pages 21-25]

[unsigned, undated]

[21]

I believe that one night, it could be during a day in the last week or so Mandy called me and Jen and told us Casidy was walking funny because she said Chad did something to Cassidy leg by pulling her or picking her up by it. We still watched Casidy for them because Mandy had to work at Old Navy Store. She told us she was going to get a babysitter again. Mandy told us that Chad had hit her because she was bad. Me and Jen should have probably done something but you would have never thought it was this bad. Casidy came over a few days ago and could hardly walk that day. The only problem I say was she could not walk around that day. She was in bed most of the day. The one thing that was wierd was she must have gut out sometime because the phone rang and I got up and rain to get the phone. I was in the living room and Casidy was in the bed room, but when I went around the corner I tripped over her because she was just standing there

[22]

by herself. She did not say anything. She just looked tired and domfounded look on her face. She had no brusses on her face from me tripping over her. Just the one's that look like some one had grabbed her face. Me and Jen watch her again and this time the brusses look like they got worse but not that thay were new but that she had got grabbed by the face in the same place. Yesterday the 11/8/00 she came over and she looked fine, not to many busses but she was still acting strang. She was over at 4:20, I think, and was pick up at about 5:30 os so. He called me at home and said he was going to pick her up at home and asked me if I could meet him at the Peter Palace in Portsmouth NH on Rte 1. I told him, no, and he said he would come over and get her. So got her coat on and brought her out to the car. She did not have any brusses on her at this time. I then went in to the house and watched TV. Chad called me and said Casidy was acting wierd in his car. I told him I did not know what he should do.

[23]

He called me latter that is Chad to tell me he was at home and Casidy fell down again on the driveway. When he got in he said he put her standing up on the driveway and went to get his sun out of the car. At that time he went around the car and Casidy was on the ground face down. He said he took her in the house and he said she had dirt in her hair. He called me again latter and said that he was playing baseball in the house with his sun and he hit a ball at her face by accident. It was earlier then or latter I think he called me later and he did say very worried because he said she was not looking very good. Her eyes were in the back of her head and she was not responding to him at this time and was not lookin good on the bed. He then said more worried she rail does not look good and ask if this ever happened over at my and Jen's house. I then said, no, and he said she was coming out of it and we got off the phone.

Jen came home and me and her talked about it. She said that Mandy talked to Chad

[24]

[sic] her work and Mandy left mad. So me and Jen thought that this was because Chad had told her about what had happened with Casidy. Then this morning Mandy brote Casidy over the house and in to are bed room and said look at her face. It did not appear a baseball could have done that kind of brusses on her face because it was all over her face. She tried to walk around and Casidy fell on the floor. Jen was there. We then tried to let her walk again but she would not

move out of the bed. We put the blankets over her and put on cartoon's on TV so she could lay there and watch them. She was very quit and not very coherrent but was still watching TV. I went out and watch TV in the other room the living room. I went in the room I believe onecs before because the cat was jumping up on the desk in the living room and ran into the bed room and I went in there to see what he might have got to hide under the bed. She was from what I remember sleeping. I then went back and watched the voteing on TV. About an hour or an hour and a half

[25]

later I went to check the mail and outside on the deck I broght the mail in the house and walked in to the bed room with it. I looked at Casidy and could tell there was something wrong with her, so I took the blanket's off of her and tried to wake her up, but I got no reaction from her. I did not know what to do. I felt her pulse and could feel it I thoght that she was doing the same thing that Chad said she did last night but it was worst. She was not breathing so I tried punging her stomich with my hand's to get her to breathe, but she wasn't coming to. I called Jen. I called Chad and called Mandy. I could not get a hold of Chad. Jen did not know what to do and I could not get a hold of Mandy. So I called 911 and tried to wake her up by slashing water on her face. She would not come to. I ran outside for the ambulance and the cops came and at that time we both tried to get her to come to.
