To Judge Tina Nadeau,

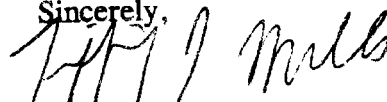

Hello, my name is Tiffany Mills. I am eighteen years old and I am from Marlborough, New Hampshire. I am currently in Denver, Colorado in a program called Americorps *NCCC, a volunteer group that goes around the country helping other people. I am a friend of Chad Evans.

I have known Chad for over ten years. When I was about eight years old Chad, along with his brother, Jason, and his sister, Nicole, would baby-sit my sister, Mandy, and me. He was always great with us. Playing games with us such as the card game Uno, watching movies with us (our favorite was *The Land Before Time*) and just hanging out with us making us feel "cool" that we were hanging out with an older cooler kid. Chad always made Mandy and me very comfortable. He never once got mad at us for doing stupid immature things that younger kids like us did. He was always very patient with us. To think that he is a killer is just beyond my belief. I do not believe it for one second. Chad was and still is very kind and gentle to everyone he meets or has ever met.

I don't know if this letter is going to make you rethink this sentence, or if even all of these letters will help but I believe that if we all pull this together and keep believing in Chad and his family that good will happen to Chad. It is not fair to keep an innocent man somewhere where he does not belong. Please take all of these letters into consideration. Chad is innocent. Whether you think it or not there are hundreds of people around that believe that.

Thank you for your time and for reading all of these letters. It is greatly appreciated. Thank you again.

Sincerely,

Tiffany J. Mills
